

Return Material Authorization Policy

All service orders require a Return Material Authorization (RMA) number and are subject to final acceptance by Giga-tronics. The RMA number allows you to track your instrument and check status more easily. To obtain your RMA number, contact our Customer Service Representatives as follows:

For U.S. Customers

Manufacturing and Correspondence Address	How to reach us
Giga-tronics Incorporated 5990 Gleason Drive Dublin, CA 94568 USA	USA 1-925-328-4650 (press "5" for support) Email: support@gigatronics.com

The following information will be requested from you:

- Method of payment: Giga-tronics accepts MasterCard, Visa, or a valid purchase order number as a method of payment.
- Shipping Address
- Billing Address
- Model and Serial Number of the instrument
- Type of service required
- If repair is required, as much detail of the problem as possible

Please note that an instrument sent to Giga-tronics without an RMA number will be returned to the customer.

Shipping: Please ensure that your unit is packed securely (preferably in the Giga-tronics original shipping package) and marked with the RMA number.

Ordering Information

Repair and calibration pricing is based upon flat fees. Where flat fee is not available, a quotation will be provided. The customer is responsible for covering all freight costs, and all import and export charges that may be incurred during shipment to and from the factory. For repairs covered under warranty, Giga-tronics Inc. will pay freight charges only for returning items to the customer.
